One Stop Displays exceeds forecasts for first quarter.

CEO and President, Khaled R. Khuda, announced today that Q1 2004 business development is exceeding expectations of investors and will show promising business growth for 2004. This news released after multiple design wins ending the first quarter of business in 2004. These design wins show initial success with multiple Fortune 500 companies for full OEM implementation of OSD display products. Success has mainly been attributed to PLED and OLED integration into full OEM turnkey products. The second quarter of business is also accompanied by a broad development of new standard products. These products are extension of interested display customers and are expected to generate display and EMS sales consistent with first quarter.

New products include further standard PLED alphanumeric displays including 8x2, additional 16x2 designs, additional 20x2 designs, 20x4, and 24x2. Graphical designs are approaching larger sizes including 160x80. Other graphical displays in development include 122x32, 160x32, and a new 128x64 display with additional features.

OSD successes can also be attributed to a variety of strategic advertising and marketing tactics. OSD management is looking to continue these strategies and broaden interest in other target markets. Mr. Khuda commented that "advertising, strategic marketing, and development of essential standard products will be the key to OSD success." OSD has also recently added to it's personnel in Winter Park, FL. OSD has also successfully added sales reps in other strategic metropolitan areas to compliment direct sales strategies.

About OSD

One Stop Displays ("OSD") is an exclusive company featuring advanced display technology. OSD was founded by Mr. Khaled Khuda. OSD is closely aligned with Universal EMS for value added display designs, board assembly, and full OEM turnkey solutions. All advertisements on products and services are established under the label OSD. OSD has also reserved the internet domain http://www.onestopdisplays.net which extends the OSD customer-oriented approach to business globally. OSD has instituted press releases for the sole purpose of public announcements reflecting its development, growth, and openly identifying its business direction to OSD customers.

About CEO Khaled R. Khuda:

Khaled R. Khuda, a nationally prominent LCD display expert and entrepreneur, earlier this year sold a majority equity interest in Data International of North America, LLC ("DINA"). DINA is an LCD display sales company founded by Mr. Khuda thirteen years ago. [DINA also sold certain of its assets.] The purchaser of such equity and assets is a Taiwan manufacturer and minority owner of DINA called Data International, Ltd. ("Data Taiwan"). Data Taiwan manufactured most of the parts sold by DINA. Data Taiwan later resold such DINA assets to and entered into a licensing and supply arrangement with TFS-DI, Inc., a subsidiary of Three-Five Systems, Inc. Three-Five is a publicly traded company operating out of Tempe, Arizona. Mr. Khuda's success in the display industry has led him to a new focusing on the latest technologies and a broad range of other products and services.
